FounderBridge

Complete app workflow guide

Every screen, every flow: from sign-up to publishing, connecting, meeting, collaborating, going Pro and getting verified.

Based on the FounderBridge app file · November 2026

01 App at a glance

One place for startups, companies, individuals and investors to build a profile, get discovered, connect and work together.

FounderBridge combines a social network, a website builder and a small workspace. People create a profile, companies publish a web page inside the app, and everyone finds each other in Discover, then meets, messages and collaborates.

Who uses it

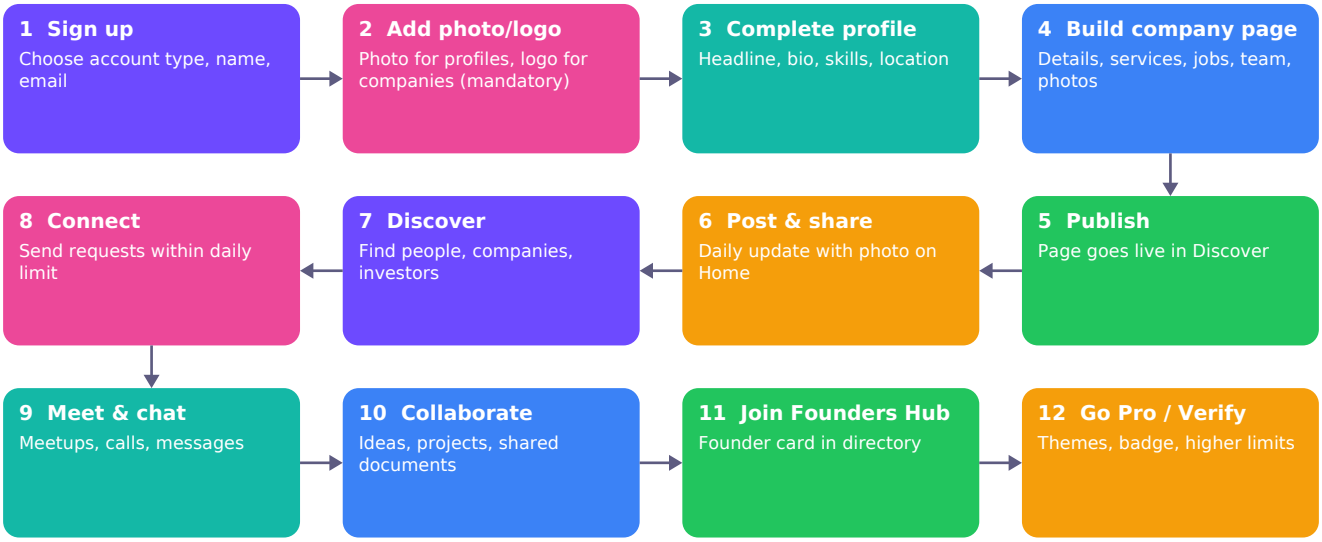

Account type	What they get
Startup founder	Company page builder, launch checklist, Founders Hub card, everything below.
Company owner	Company page, jobs, resumes, team, mail, Founders Hub card.
Individual	Personal profile, Discover, ideas, meetups, messages, workspace. No company tab.
Investor	Investor profile (firm, ticket size, sectors, portfolio). Appears in Discover → Investors. No company tab.

Main screens (bottom/side navigation)

Screen	Purpose
Home	Daily greeting and quote, post updates with photos, Ads panel, to-do list, launch checklist (startups), today's meetups, stats.
Discover	Tabs for People, Companies and Investors. Search, Connect, Follow, visit company sites, view investor portfolios.
Founders Hub	Directory of founder cards, filtered by industry. Join with your own card.
Ideas & Projects	Share a project idea, say who you need; others apply to join.
Meetups	Schedule calls or in-person meetups with date, time and description; others apply and join.
My Company	Website builder: preview, edit, publish, plus jobs, resumes, team, photos, mail.
Messages	Chat and calls with your connections.
Workspace	Create documents, share them, co-edit with people you share with.
Plans	Free vs Pro (₹199/month), verification, advertise.
Profile	Personal details, skills, theme, photo (mandatory).

02 Master workflow

The end-to-end journey of a new startup user.

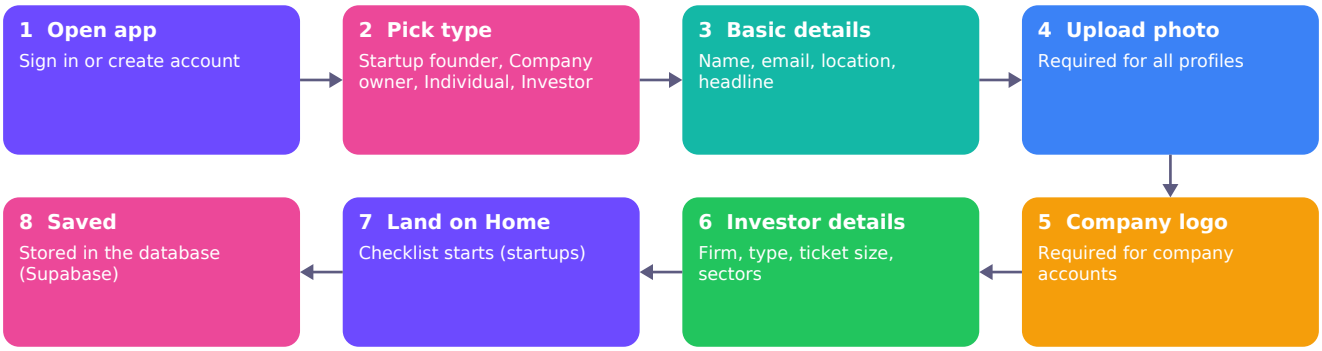

Daily loop

- Open Home: read the quote of the day, check notifications and today's meetups.
- Post a short update (text and photo). Others can like it.
- Tick items on the to-do list and the launch checklist (startups only).
- Check Discover for new people and replies; send connection requests.
- Handle company work: new resumes, mail, job posts, page edits.

> **Mandatory items:** a company logo for company pages, and a profile photo for every personal and investor profile. A company cannot publish without the logo, name, about text, email and phone.

03 Sign-up and onboarding

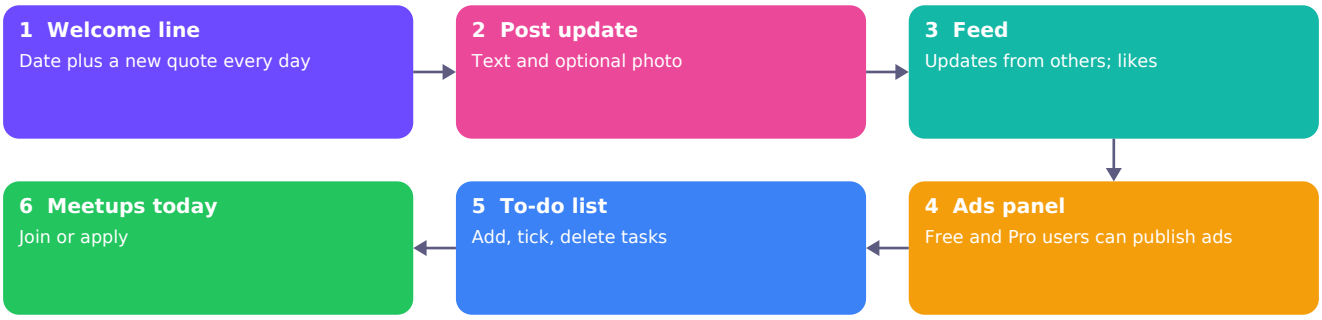

Required fields by account

Account	Must provide	Optional
Startup founder / Company owner	Name, headline, profile photo, company name, company logo, about text, email, phone	Website, address, vision, mission, services, registration numbers
Individual	Name, headline, profile photo	Bio, skills, education, experience, interests, links
Investor	Name, profile photo, firm name, investor type, ticket size, sectors	Portfolio companies, geography, stage, notes

Startup launch checklist (only for startup accounts)

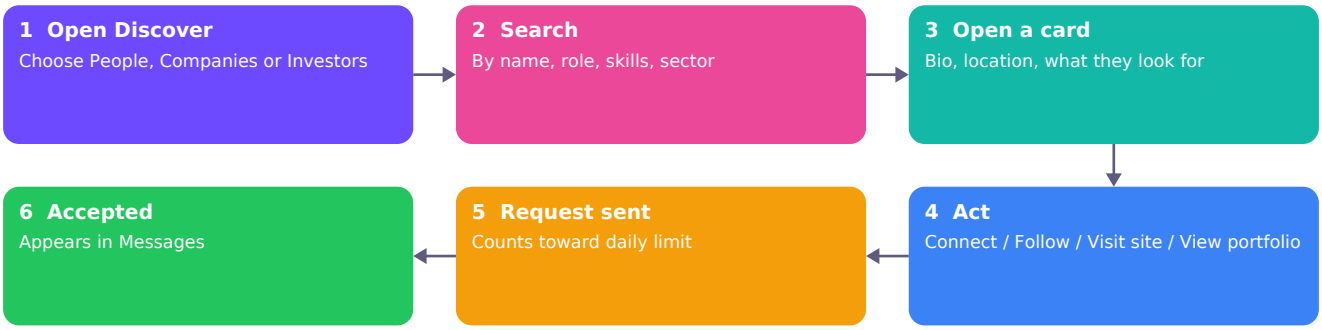

- Items tick themselves as you act: post an update, upload 3 photos, publish the page, join the Founders Hub and so on.
- A progress bar on Home shows the percentage complete.
- Other account types do not see the checklist.

04 Home: daily workspace

Block	How it works
Daily quote	Changes every day and matches your profile type (founder, investor, individual).
Posting	Write a message, attach a picture and post. It appears in everyone's feed with a like button.
Ads panel	Replaces "People you may know". Any user can publish an ad (business name, website, headline up to 60 characters, description up to 120, button text) for 7, 14 or 30 days.
Sponsored cards	Free accounts see a small sponsored card after every 2 updates. Pro accounts do not.
To-do list	Private tasks. Add, tick as done, or delete.
Stat tiles	Connections, posts, meetups and similar counts at the top.
Quick buttons	Share an idea, schedule a meetup, find investors, open messages.

05 Discover and connections

Tab	Cards show	Actions
People	Name, role, location, short bio, looking-for, skills	Connect
Companies	Published company sites with tagline and services	Follow, Visit site (opens the company web page inside the app)
Investors	Firm, investor type, ticket size, sectors, portfolio	Connect, request intro, View portfolio (each company has a View button)

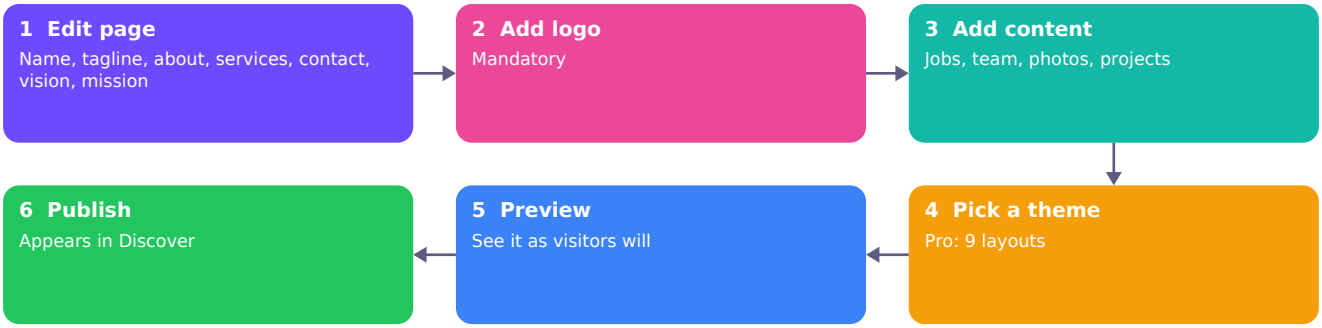

Limits

Plan	Connection requests per day	Investor intros per month	Discover order
Free	5	3	Normal
Pro	15	15	Normal
Pro + Verified	25	30	Shown first

Verified accounts appear first in Discover and get the higher limits.

06 My Company: your website inside the app

Company and startup accounts get a page builder. The page looks like a normal website.

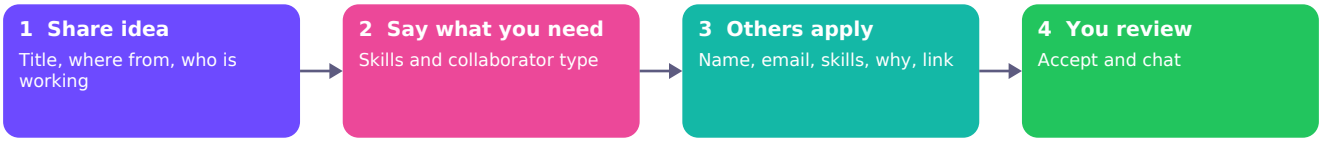

Tab	What you do there
Preview	See the live look. Switch layout and colours (Pro). Publish or unpublish.
Dashboard	Overview of views, jobs, applications and team.
Projects	List company projects shown on the page.
Edit page	Company name, tagline, about, services, website, email, phone, address, vision, mission. Name, about, email and phone are mandatory.
Jobs	Post openings: title, type, location and description. Visitors see an Apply button.
Applications	Resumes and candidates sent to you, each with a status: New, Shortlisted, Hired, Rejected.
Team	Add employee details: name, role, photo.
Photos	Upload office, team and product pictures. Tap a picture to open it full screen with arrows.
Mail	Write emails to candidates or partners and keep a sent list.

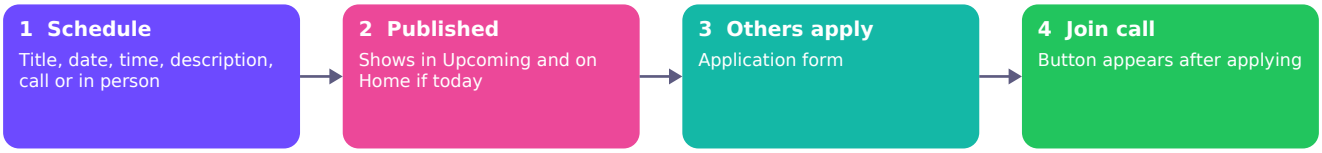

Publishing rule: the Publish button is blocked until the logo, company name, about text (20+ characters), a valid email and a phone number are filled in.

07 Ideas, meetups, messages and workspace

Ideas & Projects

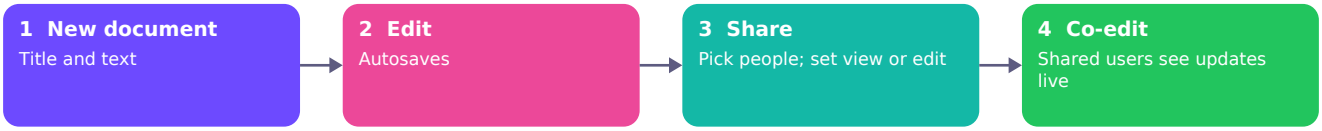

Meetups & calls

Messages

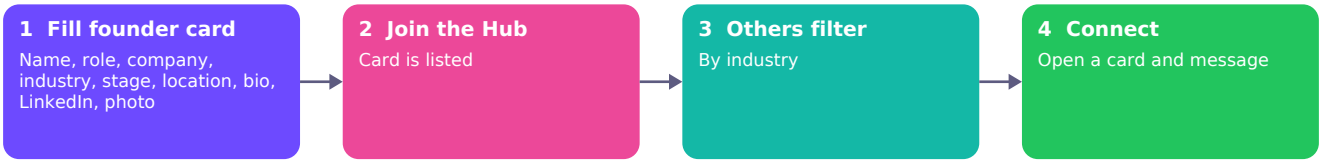

Chat with your connections. Start a chat from a connected profile. Call buttons show for connected people.

Workspace (documents)

- "Mine" lists your documents; "Shared with me" lists others'.
- Only people you share with can open or edit a document. Delete removes it for everyone.

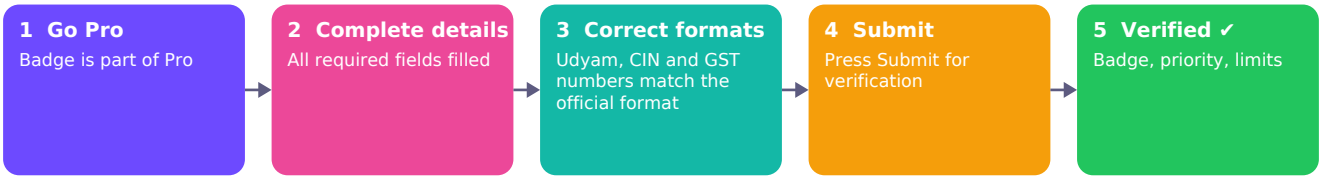

Founders Hub

08 Plans, verification and advertising

	Free ₹0	Pro ₹199 / month
Profile, company page, posts, meetups	Yes	Yes
Layouts and colours	Default look only	9 company layouts, 9 profile layouts, 10 app colour schemes, sidebar Pro look
Sponsored cards in feed	After every 2 updates	None
Connection requests / day	5	15 (25 verified)
Investor intros / month	3	15 (30 verified)
Verified badge	Not available	Included once details are complete
Shown first in Discover	No	Yes, when verified
Profile analytics	No	Coming soon

Getting verified

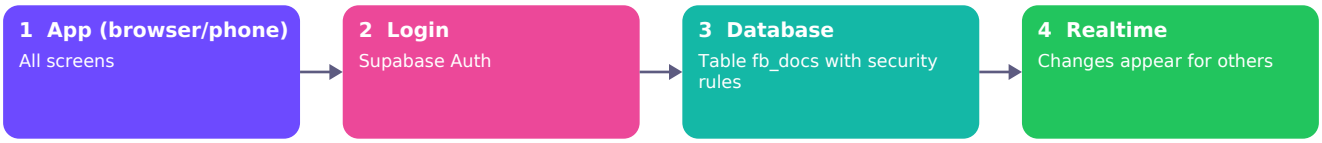

The app checks completeness and number format only. Checking numbers against government records needs the hosted backend.

Advertising

- Open Plans → Advertise, fill business name, website, headline, description and button text.
- Choose 7, 14 or 30 days. The ad runs in the Ads panel on Home for free and Pro users.

Payments: Pro activation in the app is a preview. Taking real payments needs a payment provider and server code.

09 Data, accounts and next steps

Data	Collection	Who can read	Who can edit
Your app data (plan, tasks, settings)	data/users//app	Only you	Only you
Profiles	members	Everyone signed in	Owner
Company sites	sites	Everyone signed in	Owner
Investors, founders	investors, founders	Everyone signed in	Owner
Posts, ideas, meetups, ads	posts, ideas, meets, ads	Everyone signed in	Owner (likes by anyone)
Documents	docs	Everyone signed in	Owner and shared users
Requests and chats	requests, chats	Everyone signed in	Owner and recipient

Recommended next steps

- Add email or Google login, so users keep their account across devices.
- Move photos and logos to file storage, to keep the database light.
- Add real payments for Pro, with a server that confirms them.
- Send real email and push notifications for requests, meetups and applications.
- Add video calling through a call service for the Join call button.
